

PALISADE, CO - HIGHWAY 6 IMPROVEMENTS

To the Honorable Mayor and Board of Trustees,

As required by the Town of Palisade Code, I present to you the 2021 Proposed Annual Budget. This budget has been prepared by the professional management team and staff of the Town. This budget reflects the vision, goals, and policies established by the Town's Board of Trustees.

The budget is designed with an orientation map that guides the reader through each fund. The budget includes an introduction to governmental accounting, budget highlights, project highlights, and financial position. This budget includes close to \$3 million in grants to assist in completing the special projects within the Town, which include:

- Pending grant of \$500,000 for asbestos remediation at the Old High School
- Highway 6 Safety Improvements Grant
- Sidewalks to Palisade High School Grant
- GIS Mapping Grant to map water lines, sewer lines & high-pressure gas line
- Wild-Fire Tender for Fire Department
- Sewer Grant to consolidate with Clifton Sanitation District

Year in Review

This year has proven to be challenging with the world-wide COVID19 pandemic, the worst crop freeze in decades, and some of the largest wildfires the state has seen. It is inspiring to be part of this community that has worked to protect everyone's health and support businesses in this unprecedented time.

Through the challenges of this year, some highlights of 2020 include:

- Constructing parklets for our downtown restaurants with CARES Act funding to provide seating to enable them to stay open year-round with pandemic
- Receiving \$2.4 million in grants for equipment and projects
- Partnership with Community Hospital for a clinic in Town in 2021
- Tamarisk & Russian Olive removal on the riverbank in Riverbend Park
- Body Cameras for Police
- Palisade Historical Society Museum Opens
- Sewer Project to Clifton has Started
- Fire Departments East End Effort Began

It is with great pleasure to present this budget to the Board of Trustees and acknowledge your hard work and extra time directing the projects and goals for 2021.

Respectfully Submitted,

Haukinson

Janet Hawkinson, MLAP Palisade Town Manager

TOWN OF PALISADE, COLORADO RESOLUTION 2020-24

A RESOLUTION OF THE BOARD OF TRUSTEES FOR THE TOWN OF PALISADE, COLORADO, APPROPRIATING SUMS OF MONEY TO THE VARIOUS FUNDS IN THE AMOUNTS OF AND FOR THE PURPOSE SET FORTH BELOW, FOR THE TOWN OF PALISADE, COLORADO, FOR THE 2021 BUDGET.

WHEREAS, the Board of Trustees has adopted the annual budget in accordance with the Local Government Budget Law on November 24, 2020 and

WHEREAS, the Board of Trustees has made provisions therein for revenues, including beginning fund balances, in the amount equal to or greater than the total proposed expenditures as set forth in the budget; and,

WHEREAS, it is not only required by law, but also necessary to appropriate the revenues provided in the budget to and for the purpose described below so as not in impair the operations of the Town of Palisade

BE IT RESOLVED BY THE BOARD OF TRUSTEES OF THE TOWN OF PALISADE, COLORADO AS FOLLOWS:

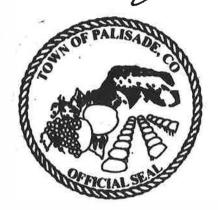

SECTION 1.That the following sums are hereby appropriated from the revenues and other available money of each fund, for the purposes stated:

General Fund	
Expenditures	\$6,334,554
Total General Fund	\$6,334,554
Utilities Fund	
	C 404 EED
Expenditures	\$431,559
Total Utility Fund	\$431,559
Tourism Fund	
Expenditures	\$43,400
Total Tourism Fund	\$43,400
Water Fund	
Expenditures	\$1,160,836
Total Water Fund	\$1,160,836
Conservation Trust Fund	
Expenditures	\$0
Total Conservation Trust	\$0
Solid Waste Fund	
Expenditures	\$205,495
Total Solid Waste Fund	\$205,495
Capital Projects Fund	
Expenditures	\$3,750,000
Total Capital Projects Fund	\$3,750,000
	<i>vv,vvvvvvvvvvvvv</i>

ADOPTED and APPROVED this 24th day of November 2020.

By the Town of Palisade, Mesa County, State of Colorado

٠. nola Mikolai, Mayor Gr

WELCOME TO PALISADE, COLORADO

Palisade Colorado is a statutory town that has a total area of 1.1 square miles and sits at the foot of the Grand Mesa and Mount Garfield in Mesa County. The town was incorporated April 4, 1904 and is home for 2,792 people. This is home to thriving agriculture, viticulture, and tourism industries.

The town is governed by 7 elected board of trustees, to include the town's mayor, and all of the officials are elected on staggered four-year terms. The Board of Trustees serves as the voice of the citizens in the town's government and they direct the strategy and priorities for the town manager.

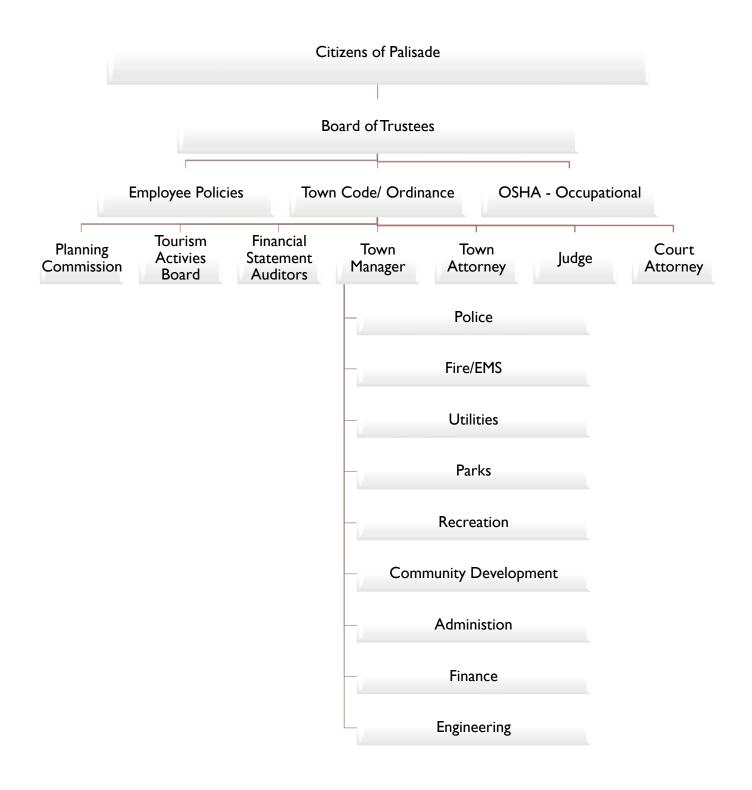

The chief administrator of the town is the Town Manager. This position serves as the chief budget officer and chief executive for the town. All operations are overseen and coordinated by the Town Manager using various department Directors.

The town operates many services for its citizens to include:

- Potable Water Distribution
- Sewage Collection and Treatment
- Parks Maintenance
- Police Services
- Fire/Emergency Medical Services
- Streets Maintenance
- Events Coordination
- Cemetery Services
- Planning and Community Development Services
- Municipal Court
- Tourism Marketing
- Refuse Collection
- General Administrative Services

One of the purposes of this budget is to provide the public and the Board of Trustees a detailed financial plan for 2021 and demonstrate how we will continue to use the resources in our custody in a responsible and thoughtful manner to improve the quality of life for the residents and visitors of our wonderful town. This also serves as the detailed authorization that the board provides to the administration of the town to continue to operate.

ORGANIZATIONAL CHART

INTRODUCTION TO GOVERNMENTAL ACCOUNTING

Please note: This entire document is meant to be taken in its entirety and any section of this budget cannot describe the proposed operations completely. Any attempt to understand the budget from solely examining one section of this budget will be misleading and not provide the reader with necessary context.

The town uses fund accounting as the basis of its accounting system in accordance with governmental accounting standards. A fund is a complete set of balancing accounts and is used to measure and track specific activities throughout the government. One can think of a fund as the books for a single business and that business will have a distinct balance sheet, income statement, and statement of cash flows. Each fund will have these elements. The reason we use funds rather than putting all operations under one set of accounts is to increase the visibility as to how we are using resources. By explicitly listing functions in the budget and in the financial statements, users of the financial statements can gain a greater understanding of the operations of the town and such an understanding may be lost if all the operations were aggregated.

This budget starts by looking at the government as a whole, as if it were aggregated. This is the view of the government with the least precision, but it is valuable to orient the reader to the general levels of revenue and expenditure we expect for 2021. This section is called the Government Wide Summary.

From the Government Wide Summary, we present the financial information in relation with each of the types of funds. The town has two types of funds, governmental and proprietary. The primary difference with each of these types of funds is their respective sources of revenue. Governmental funds derive revenue from taxation. The main sources of tax revenue for the town are sales tax and property tax. In contrast, a proprietary fund derives its revenue from user fees. For the town, these fees are primarily water, sewer, and garbage collection fees charged to residents for the use of these services. Each of these funds represent a portion of the government wide picture and as such will articulate fully into the government wide summary.

After becoming acquainted with the different fund types, each fund used in the town are listed in its respective fund type. In 2021, we anticipate using 7 total funds. Four funds will be governmental funds and three will be proprietary funds. In the governmental category, the three funds consist of the General Fund, Tourism Fund, Conservation Fund, and Capital Projects Fund. In the proprietary category, the three funds are the Utility Fund, Water Fund, and the Solid Waste Fund. The operations of each of these funds is distinctly addressed and projected revenues and expenditures are presented for 2021.

The majority of government activities go through the General Fund and as such, particular attention is given in this budget to the General Fund and the departments contained therein. This is where functions like police services, fire and emergency medical services, and streets maintenance are described. This is the level that provides the greatest detail of information and the specific details of resource appropriations for functions or projects.

ORIENTATION CHART

The following chart is an illustration of the fund system in governmental accounting. All transactions are maintained at the fund level. Funds can be further broken down into departments to aid in resource allocation, operational control, and performance assessment. The General Fund and the Utilities Fund both have subordinate departments to the fund. Funds can also be aggregated into fund types. This is how we get the classification of Governmental Funds and Proprietary Funds. When we aggregate the fund types, we can gain an overall picture of the government as a whole. This chart will appear at the beginning of each section of this budget and will act as an orientation as to the portion of the chart highlighted corresponds to the section discussed.

BUDGET TABLES

This section discusses the basic format of the budget tables used in this budget and what each element represents. This will help the reader better understand the table format and gain a better understanding of the entire budget.

The following is a simplified version of a budget table. The Red numbers by each field correspond to a description of the field listed later in this section of the budget. In these descriptions, there are the calculations underlying any calculated field and the definition of the field in the table.

Fund 1

Expenses 3		6	7	8	9	10	11
		2017	2018	2019	2019	2020	%
Account 4	Description 5	Actual	Actual	Adopted	Estimated	Budget	Change
Personnel, Wages 12							
XXX-XXX-XXXX	Account Title	100	115	125	120	130	4%
	Category Total 13	100	150	125	120	130	4%
Personnel, Benefits							
XXX-XXX-XXXX	Account Title 2	300	325	400	200	350	-12.5%
	Category Total	300	325	400	200	350	-12.5%
Total Expenses 14		400	475	525	320	480	-8.6%

Department 2

DESCRIPTIONS OF FIELDS

This is a listing of all the fields in the budget table and a definition of each.

Field Number	Field Title	Description of Field
1	Fund	This indicates the fund or organizational element of the table.
2	Department	This indicates the department or orientation level of the table. This
	T	field can refer to the orientation map of a section of the budget.
3	Туре	This indicates whether the data in the table is related to revenues or
		expenditures. Revenues increase the resources of the Town.
		Expenditures decrease the resources of the Town.
4	Account Number	This is a naming field for the corresponding column of the table. This
		column will indicate the general ledger number used in the Town's
		accounting system to accumulate transactional detail.
5	Account Name	This is a naming field for the corresponding column of the table. This
		column will indicate the general ledger account name used in the
		Town's accounting system to accumulate transactional detail.
6	Actual Results 3	This is a naming field for the corresponding column of the table. The
	Years Prior to	data in this column represents the sum of the transactional accounting
	Budget Year	data recorded in the account referenced in fields 4 and 5 for the year
7	Actual Results 2	ending 3 years prior to the budget year. This is a naming field for the corresponding column of the table. The
/	Years Prior to	data in this column represents the sum of the transactional accounting
	Budget Year	data recorded in the account referenced in fields 4 and 5 for the year
	Budget Tear	ending 2 years prior to the budget year.
8	Adopted Last	This is a naming field for the corresponding column of the table. The
	Year Budget	data in this column represents the most recently adopted budget.
9	Current Year	This is a naming field for the corresponding column of the table. The
	Estimate	budget is prepared before the end of the current operating year. All of
		the expenditures and revenues have not been realized for the operating
		year. Management estimates the total amounts for each account based
		on data and current operational conditions.
10	Current Budget	This is a naming field for the corresponding column of the table. This
		column is the amount requested to be appropriated for the current
		budget.
11	Change in	This is a naming field for the corresponding column of the table. This
	Amount	is a calculation that measures the difference in the Current Budget
		column to the Adopted Last Year Budget column. The calculation is as
		follows: (Current Year Budget – Adopted Last Year Budget) / Adopted
12	Catagory	Last Year Budget This is a section delineation. The data under this delineation relates to a
12	Category	summary schedule category. These summary schedules are named
		either "Revenue by Source" or "Expenses by Type".
		entite revenue of Source of Expenses of Type.

13	Category Total	This is a row naming field. The amounts in this row are the sum of the	
		columns under a Category delineation. The only exception to this is the	
		amount in the change in amount column. The amount in this column is	
		calculated the same way the as in the rest of the rows in the table.	
14	Table Total	This is a row naming field. The amounts in this row are the sum of all	
		category totals in the table. The only exception to this is the amount in	
		the change in amount column. The amount in this column is calculated	
		the same way the as in the rest of the rows in the table.	

DISCUSSION OF FINANCIAL POSITION

Many people have heard through their civics education, news media, or personal work experience of a "balanced budget." This concept means that an entity does not expend anymore resources in one year then it receives. In other words, the revenues for one year are equal to the expenditures. There are times where having a "balanced budget" is a sound operating practice and it shows the town's citizens a level of responsibility with resources. There are other times where having a "balanced budget" withholds benefits from citizens for which they have already paid.

Over the past few years, through conservative and prudent financial management, the town has amassed a surplus of funds in the General Fund as well as the Water and Utilities Funds. The accumulation of this surplus is known as a spendable Fund Balance. This amount of surplus can be used as a contingency for major repairs and maintenance, disaster relief, or to reinvest in capital projects such as parks and infrastructure.

In this budget year, this budget proposes to use some of the fund balance to reinvest in parks, facilities, and infrastructure. Some of this fund balance will be used to match grant funding to help fund these projects. If awarded, these grants will functionally stretch the spending power of our fund balance and increase the ability for the town to provide more services to its citizens.

This budget is not a "balanced budget" as described above. The proposed expenditures exceed the projected revenues of the town. This budget is a deficit budget and the deficit will be used to partially reinvest a fund balance that has been accumulated over the past few years to capital improvement projects throughout the town to increase the quality of life for the residents of Palisade.

A detailed discussion of revenues and expenditures can be found in the Government Wide section and again in the Government and Proprietary Funds section.

SPECIAL PROJECTS

In this section, we want to discuss the various projects that we will undertake in 2021 as part of the town's commitment toward capital improvement and reinvesting in our infrastructure. This is a piece of a three-year rolling capital improvement plan aimed at significantly improving aged infrastructure or adding to the infrastructure of the town for the betterment of the community.

In the interest of making the following table understandable, these are the meanings of each of the columns in the table.

- Project Title This is the title of the project that is referenced throughout this budget. This is how a reader can understand how a single project articulates to a fund and an account in the fund and department level detail sections of this budget.
- Project Description This is a brief description of the project which is more specific and illustrative than the project title.
- Fund/Department This is which fund and department (as applicable) is responsible for the project and where the project funding is further described in this budget. The reader can go to each Fund and Department section for a specific project and locate the general ledger account which each project is recorded.
- Funding Source This is the expected funding source of each project and the percentage of the total expected expense that each funding source is expected to cover. For example, if the total expected cost of a project is \$20,000 with a 50% Grant/50% Tax Revenue Funding Source, \$10,000 will be provided by a grant and \$10,000 will be provided by tax revenue.
- Expected Cost This is the total expected cost of the project. This amount does not differentiate funding sources.

Project Title	Project Description	Fund/	Grant	Town	Expected	
		Department	Revenue	Funding	Cost	
	Large Capital Improvement Projects with Grant Funding					
Safety Improvements on Highway 6	This project will increase safety on Highway 6 by adding multi-modal options to the highway and adding traffic calming features.	Capital Projects Fund	\$ 547,636 GVT Grant	\$ 752,364	\$1,300,000	
Sidewalk Construction along Highway 6	This project will create sidewalks along Highway 6 Frontage Road to the High School. This will help facilitate mobility throughout the town without the use of automobiles.	Capital Projects Fund	\$ 800,000 CDOT Grant	\$ 200,000	\$1,000,000	
Old High School Asbestos Abatement	This project will remove hazardous asbestos materials from the old high school building.	Capital Projects Fund	\$ 500,000 EPA Grant	\$ 100,000	\$600,000	
Pipeline Mapping	This project will map the high-pressure gas lines and other infrastructure in GIS	Capital Projects Fund	\$ 50,000 PHMSA Grant	\$0	\$50,000	
Tactical Fire Tender	The acquisition of a fire tender apparatus to respond to local wildfires and render mutual aid	General Fund / Fire For Supplemental Appropriation	Unknown	Unknown	Unknown Estimated 300K	
Sewer Treatment Consolidation to Clifton Sanitation District	This project will decommission the Town's sewer treatment facilities and route sewage to the Clifton Sanitation District for processing	Utilities Fund/ Treatment For Supplemental Appropriation	Unknown	Unknown	Unknown Estimated \$14 M	

Project Title	Project Description	Fund/Department	Funding	Expected

GOVERNMENT WIDE SUMMARY

In the Government Wide Summary section of this budget, we are aggregating all funds and operational expenditures into one grouping. This provides an extremely condensed and summarized view of the budget and the operations of the town. This presentation is used primarily to orient the reader to the town and gain a basic understanding of how each fund articulates to the operations of the entire town.

ORIENTATION MAP

As the orientation map shows, the perspective of the government we are discussing in this section is from the entire government consolidated and from the different funds condensed into two groups. This is notated in the map by the bold portion. The subdued sections will be addressed in subsequent sections.

GOVERNMENT SUMMARY

This is a summary of the government taken as a whole. All funds have been aggregated and all fund types have been aggregated. From this summary, the reader can quickly identify some basic information from the budget and gain some perspective into the operations of the town finance system.

We start this summary with two different tables, revenue by source and expenses by type. The revenue by source table shows the mix of different types of revenue that the town receives. This is a description of each category in the revenue by source table.

It is apparent by comparing the revenues in total to the expenses in total in the government wide summary, the expenses are \$1,282,644 more than the budgeted revenues for 2021. This results in a single year revenue deficit for the projected expenditures. This means the expected revenues for 2021 are not solely enough to pay for the proposed expenses. This requires funding for these expenses to be obtained from another source outside of the 2021 revenues collected. The detail from the source of this funding is discussed at the fund level introduction and analysis. In 2021, one hundred percent of the annual revenue deficit across all funds is being funded by excess revenues that have been accumulated from previous years. These excess revenues are commonly called a "fund balance" and this balance is largely being used to match grant funding in the General Fund. All fund balance spending is attributable to capital improvements to the town's infrastructure.

Revenue Category	Description
Tax	These are receipts from sales, property, and other taxes.
Licenses	This is revenue derived from licensing businesses and other
	enterprises in the town.
Intergovernmental	This is grant revenue or other revenue provided by another
Revenues	government entity.
Charges for Service	These are receipts for services provided by the town to end users
	for such services.
Fines, Forfeits, and	These are receipts from court actions.
Assessments	
Interest and Rentals	This is revenue generated from cash reserves or the use of the
	town's assets.
Donations	These are receipts from citizens or business entities that are used
	to support the operations of the town.
Miscellaneous	These are receipts from various sources that are not classified
	above.
Other Revenue Sources	These are typically non-recurring revenue sources.
Transfer from Other Funds	These are revenue sources in one fund caused from the transfer
	from another fund.

This is a description of each category in the expense by type table.

Expense Category	Description
Personnel, Wages	These are expenses directly related to wages paid to town
	employees.
Personnel, Benefits	These are expenses related to providing benefits to the town's
	employees. Some of these benefits include Social Security and
	Medicare Contributions under FICA, health and dental insurance,
	and retirement funding.
Purchased Professional	These are expenses related to contractor payments for services
Services	rendered to the town.
Operating Expenses	These are expenses such as utilities, fuel, repairs and
	maintenance, and equipment lease service. These expenses allow
	the town to operate.
Capital Expenses	These are expenses that are incurred to replace long term durable
	equipment or to service debt that was used for that purpose in the
	past.
Special Projects	These are reinvestments into the town's infrastructure and
	culture. Many of these are listed in the special projects listing
	section of the budget as well as in the relevant depart of the
	project.
Transfer from Other Funds	This is an expenditure caused from the transfer of resources from
	one fund to another fund.

Government Summary

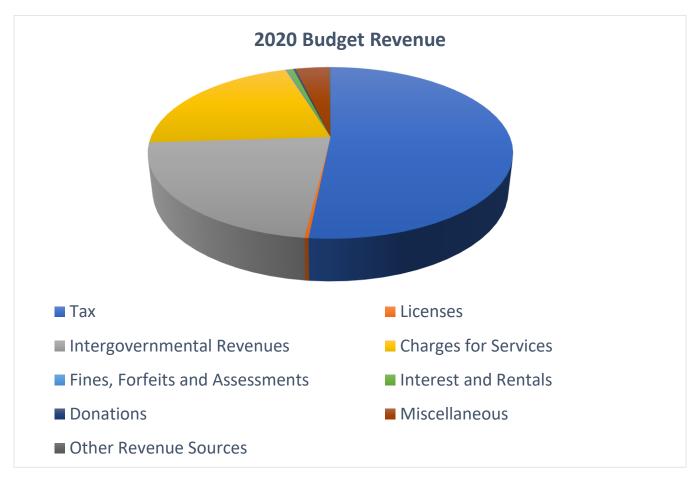

Revenues by Source						
	2018	2019	2020	2020	2021	%
Description	Actual	Actual	Adopted	Estimated	Budget	Change
Tax	3,922,571	4,353,217	3,547,076	4,041,967	3,813,500	8%

	7,438,583	7,754,380	8,282,703	7,041,408	8,840,836	7%

Expenses by Type

	2018	2019	2020	2020	2021	%
Description	Actual	Actual	Adopted	Estimated	Budget	Change
Personnel, Wages	1,964,291	2,117,331	2,338,237	2,372,807	2,294,600	-2%
Personnel, Benefits	691,731	749,265	845,655	813,801	879,114	4%
Purchased Professional Services	504,042	641,748	633,200	643,092	733,200	16%
Operating Expenses	1,157,760	1,273,832	1,765,000	1,291,106	1,475,700	-16%
Capital Expenses	505,930	897,038	517,155	440,732	4,255,366	723%
Special Projects	607,560	315,274	3,680,850	319,100	485,500	-87%
	5,431,313	5,994,489	9,780,097	5,880,638	10,123,480	4%

Note: \$1,897,636 of Intergovernmental Revenues is proposed grant funding. See the Capital Projects Fund Section for more detail of this funding.

These two charts can be compared to understand the difference in revenue sources for the Town of Palisade from 2020 to 2021. There is a slight difference in revenue source from 2020 to 2021 primarily driven by the increase in grant funding proposed by this budget. This is illustrated by the gray section in both charts. In 2021, the gray section is larger when compared to 2020.

This chart illustrates the mix of revenue budgeted in 2020.

This chart shows the proposed budget for revenue for 2021.

The grey sections in each of the revenue pie charts shows the portion of Intergovernmental Revenues to the entire revenue stream for the government. There is a larger portion of revenue coming from Intergovernmental Revenues in 2021 when compared to 2020. This is due to projected grant funding in the Capital Projects Fund. For further details of these funding sources, see the Capital Projects Fund Analysis Section of this budget.

These two charts illustrate the difference in proportional expenses for the Town of Palisade from 2020 to 2021. The primary difference in the mix of expenses is in special projects and capital expenses, as shown in green in both charts. There is a significantly greater proportion of the budget being used on capital expenses in 2021 as compared to 2020. The 2020 budget included many of the same capital projects and were classified as special projects in 2020 and capital expenses in 2021. This change was due to using the Capital Projects Fund to track these projects. This difference is largely due to a change in accounting treatment and expansion of capital projects in 2021.

 D2D Budget Expenses

 Description

 Description

This chart illustrates the mix of expense budgeted in 2020.

This chart illustrates the mix of expense proposed for budgeting in 2021.

The expansion of revenue through grant funding is being used to partially finance these capital improvements. These grants require a portion of the grant to be matched by the town's resources. This match is the main contributor to overall projected expenditures for the year exceeding the town's projected revenues. The source of these matching resources is from the fund balance is being transferred from the General Fund to the Capital Projects Fund. See the General Fund and Capital Projects Fund sections for further details.

SUMMARY BY FUND TYPE

When the financial information is aggregated in the government wide level, it makes it very difficult to determine which resources are being used how the resources are being used. It is valuable to make a distinction between funds based on the source of revenue and group them based on this distinction. We have bifurcated the funds into two different types, Governmental Funds and Proprietary Funds.

Governmental Funds are funds that derive their revenue primarily from taxation. In the town, this is largely sales and property taxes.

Proprietary Funds are funds that derive their revenue primarily from user fees. In the town, water, sewer, and refuse collection are services provided for which the users of these services are billed.

By making this distinction, there is a different picture of the budget presented. The Proprietary Funds are projected to have nearly a balanced budget and their special and capital projects are largely going to be funded using the revenue from the same budget year. In contrast, the governmental funds are contributing to the majority of the deficit in this budget. This makes sense due to the large investments in infrastructure and capital expenses are being proposed in departments controlled and funded in the Governmental Funds, mostly the General Fund.

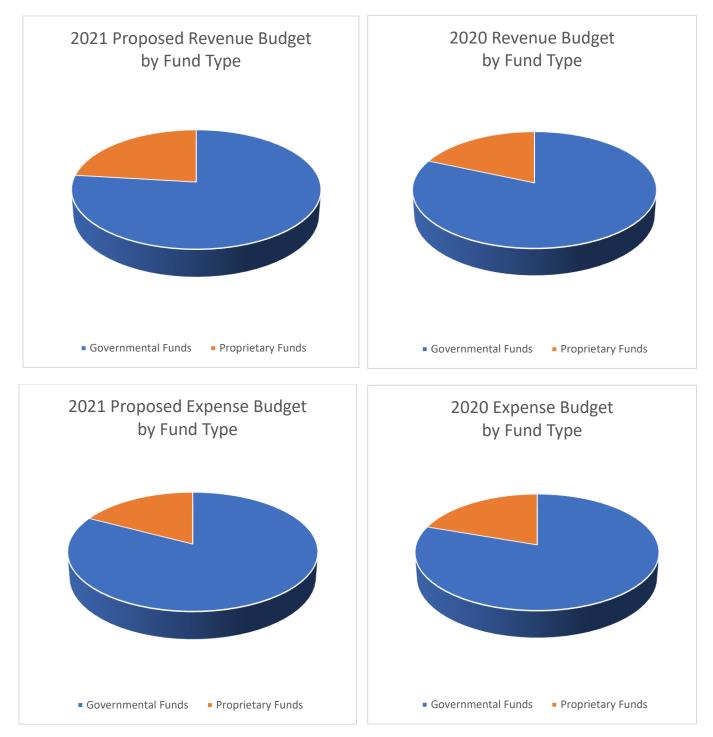

As the total revenues and expenses are compared with this fund type distinction made, it provides more detail with regard to the composition of the revenue to expense deficit. There is a current year revenue surplus of \$247,611 in the Proprietary Funds. This is about 13.8% of the total expenses in the current year. For comparison, there is a current year revenue deficit in the Governmental Funds of \$1,530,254 which is about 18.4% of the total expenses in the current year. Both current year revenue deficits are fully funded by excess revenues collected and unexpended in prior years.

Government Revenue to Expense Summary by Fund Type

Revenues						
	2018	2019	2020	2020	2021	%
	Actual	Actual	Adopted	Estimated	Budget	Change
Fund Type						
Governmental Funds	5,305,179	5,830,422	6,476,463	5,041,708	6,795,336	5%
Proprietary Funds	2,133,404	2,133,404	1,806,240	1,999,700	2,045,500	13%
	7,438,583	7,963,826	8,282,703	7,041,408	8,840,836	7%

Expenses						
	2018	2019	2020	2020	2021	%
Description	Actual	Actual	Adopted	Estimated	Budget	Change
Fund Type						
Governmental Funds	3,932,978	4,673,611	7,853,547	4,464,663	8,325,590	6%
Proprietary Funds	1,498,335	1,320,878	1,926,550	1,415,976	1,797,890	-7%
	5,431,313	5,994,489	9,780,097	5,880,638	10,123,480	4%

The following charts are used to compare relative revenue and expense activity between 2020 and 2021. Comparing the revenue budgets for 2020 and 2021 reveals that the revenue and expense distribution between Governmental Funds and Proprietary Funds are very similar. This is largely due to the increase of budgeted grant funding and capital improvement projects in both years.

GOVERNMENTAL FUNDS

In this section, we will summarize all the funds designated Governmental Funds. This distinction is made based on the source of the fund's revenue. Governmental Funds are mainly funded by tax revenue. There are four distinct governmental funds that are included in this section. These are the General Fund, the Tourism Fund, the Conservation Fund, and the Capital Projects Fund.

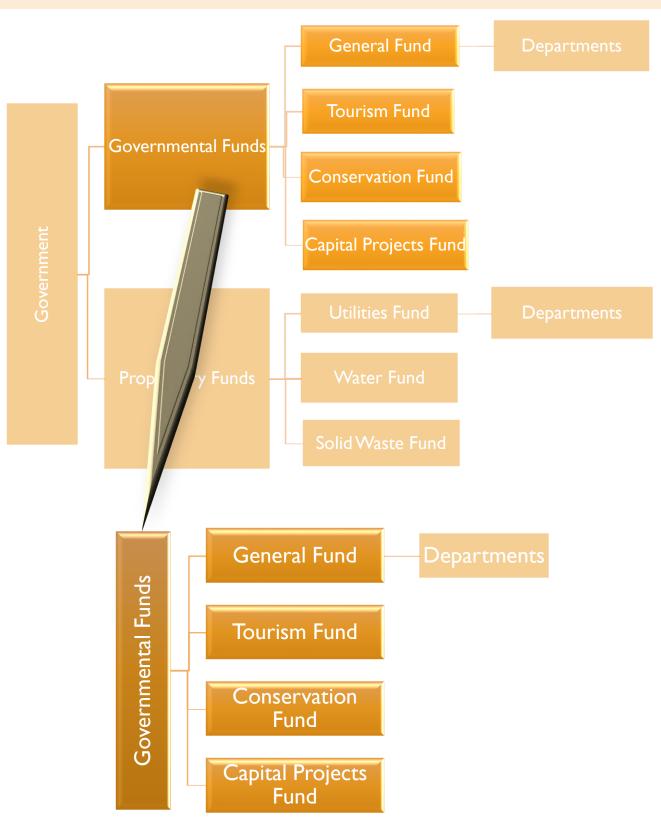

The General Fund is the main operating fund for the town to provide government services to the public. This is the largest fund in the finance structure and is subdivided into various departments for increased resource control, accountability, and mission segregation.

The Tourism Fund is a small fund and it is funded through a fee levied on lodging businesses. These funds used to promote and market Palisade to potential visitors.

The Conservation Fund, also a relatively small fund, is funded solely through revenue apportioned from the Colorado Lottery and the revenue in this fund is restricted in use to the building or improvement of parks and open spaces within the town.

The Capital Projects Fund is for tracking the expenditures of resources in the construction or completion of large capital projects. Once these projects are completed, the assets are transferred to the appropriate fund. This fund does not accumulate assets over the long term.

ORIENTATION MAP

SUMMARY BY GOVERNMENTAL FUND

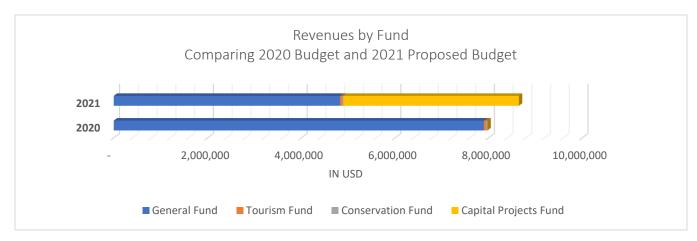

Through analysis of the following table, the relative size as measured by revenue and expense becomes apparent when comparing the General Fund to the Tourism and Conservation Funds. The General Fund is much larger in both revenue and expense than the other two funds. It may be helpful to think of the Governmental Funds as specifically the General Fund. Even though this is not technically accurate, the General Fund is responsible for such a large portion of the revenues and expenses, the other funds may become a distraction when evaluating this budget. The Capital Projects Fund is only used to track the completion of capital projects. It only has two funding sources, grants and transfers from other Town funds. As a result, \$1,902,364 is counted as an expenditure in both the General Fund and Capital Projects Fund. In the General Fund, this expenditure is the transfer to the Capital Projects Fund. This same amount is shown as a revenue in the Capital Projects Fund. These transactions were eliminated in the government summary statements.

Revenues						
	2018	2019	2020	2020	2021	%
	Actual	Actual	Adopted	Estimated	Budget	Change
Fund						
General Fund	5,232,582	5,744,838	6,400,463	4,971,641	4,827,700	-25%
Tourism Fund	45,077	51,469	50,000	49,467	50,000	0%
Conservation Fund	27,521	34,115	26,000	20,600	20,000	-23%
Capital Projects Fund	-	-	-	-	3,800,000	
	5,305,179	5,830,422	6,476,463	5,041,708	8,697,700	34%

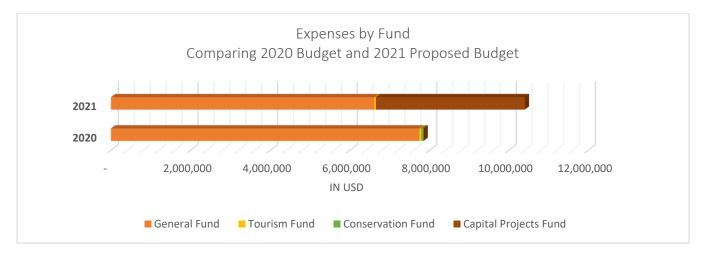

Governmental Funds Revenue to Expense Summary

Expenses						
	2018	2019	2020	2020	2021	%
	Actual	Actual	Adopted	Estimated	Budget	Change
Fund						
General Fund	3,878,781	4,611,564	7,747,647	4,364,538	6,384,554	-18%
Tourism Fund	44,169	54,082	45,900	35,125	43,400	-5%
Conservation Fund	10,028	7,964	60,000	65,000	-	-100%
Capital Projects Fund		-	-	-	3,800,000	
	3,932,978	4,673,611	7,853,547	4,464,663	10,227,954	30%

As discussed above, these bar graphs show the relative size of the General Fund in comparison to the Tourism and Conservation Fund in terms of revenue and expense. The General Fund is represented by the blue portion of the line and the Tourism and Conservation Funds are respectively orange and gray in the revenue bar graph. The yellow section is the revenue in the Capital Projects Fund.

The General Fund expenses are compared to the Tourism and Conservation Fund in the below bar graph. The General Fund is orange and the Tourism and Conservation Fund are yellow and green respectively. The Capital Projects Fund is brown. Both the General Fund and Capital Projects Funds are grossed up in this representation by not eliminating interfund transfers.

This graphical representation shows the relative size disparity between the general fund as compared to the other funds classified as governmental funds. The general fund is many orders of magnitude larger than the other funds in both expenses and revenue.

GENERAL FUND

The General Fund is the primary operating fund for the town to provide governmental services to its citizens. These services include, Police services, Fire/Emergency Medical services, street maintenance, cemetery care, parks, pool, and community development.

The General Fund obtains the majority of its revenue from sales and property taxes. In the 2021 budget, there is a large decrease of revenue from intergovernmental revenues. This is due to the grant revenues received being recorded in the Capital Projects Fund rather than the General Fund.

The fund balance analysis shows the changes in fund balance from year to year. A fund balance can be thought of as accumulated profit or loss throughout the entity's life cycle. There has been a positive trend in the fund balance year to year in this analysis and there is an estimated General Fund balance of \$5,667,914 at the beginning of 2021. If this was business accounting, this balance could be thought of as the equity in the business or the pool from which dividends could be distributed. The town government is not a business and this balance has a different meaning. This balance is the amount of revenue in excess of expenditures from one year to the next. A government can build these resources to save-up for capital improvements, increased services, and infrastructure repairs, maintenance, and improvement. For the 2021 budget, we are proposing a decrease of \$1,556,854 to the fund balance. This means that we will fund some of these capital improvement projects in the Capital Projects Fund with excess revenue saved from previous years. The Capital Projects Fund will be funded through a transfer from the General Fund and associated grant receipts.

General Fund

Fund Balance						
	2018	2019	2020	2020	2021	%
	Actual	Actual	Adopted	Estimated	Budget	Change
Beginning Fund Balance	2,573,735	3,927,536	4,319,610	5,060,811	5,667,914	31%
Net Change in Available Fund Balance	1,353,801	1,133,274	(1,347,184)	607,104	(1,556,854)	16%
Ending Fund Balance	3,927,536	5,060,811	2,972,426	5,667,914	4,111,060	38%

Fund Balance Detail						
	2018	2019	2020	2020	2021	%
	Actual	Actual	Adopted	Estimated	Budget	Change
Restricted for Tabor	159,246	177,482	233,629	130,936	191,537	-18%
Restricted Traffic Impact Fees	299,360	261,300	-	264,300	-	
Non-spendable	76,157	50,835	70,000	55,000	70,000	0%
Cemetery Perpetual Care	114,995	118,424	121,977	121,977	125,636	3%
Operating Reserve	915,106	1,004,996	1,600,116	1,242,910	1,206,925	-25%
Unassigned Fund Balance	2,362,672	3,447,774	946,704	3,852,791	2,516,962	166%
Ending Fund Balance	3,927,536	5,060,811	2,972,426	5,667,914	4,111,060	38%

Note: In the above Fund Balance table there is a projected decrease in the fund balance of \$1,556,854. There is \$1,902,364 being transferred to the Capital Projects Fund for the construction of capital projects in the Town. This transfer causes the fund balance to be projected as a decrease. Excluding these capital projects, the fund balance would be projected to increase which means that the continual operations and small capital improvement projects of the General Fund are fully funded with current year revenue.

General Fund Revenue to Expense Summary

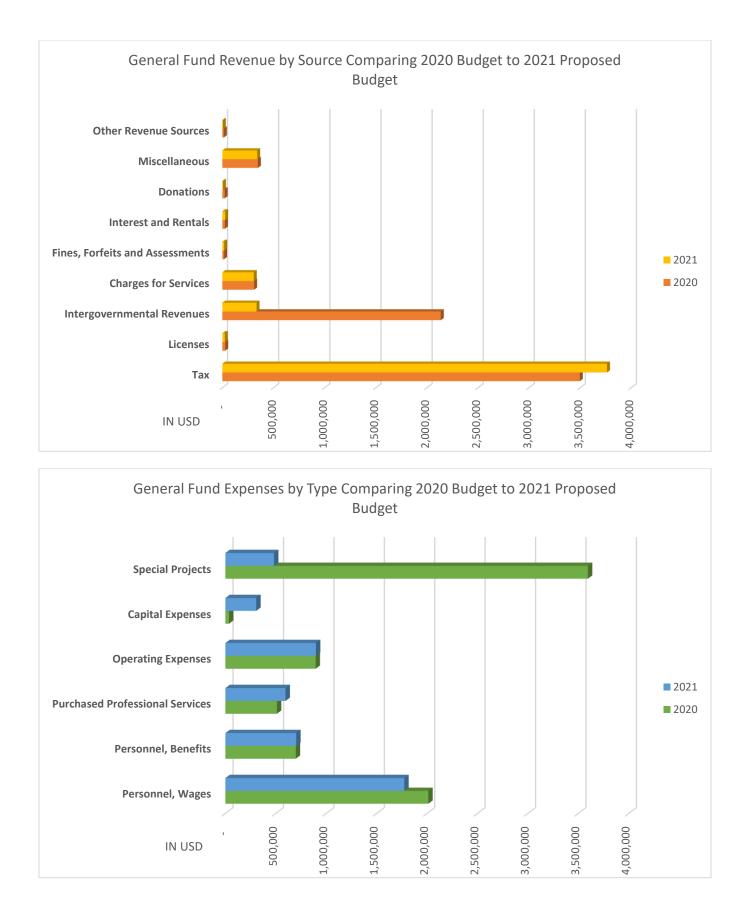

Revenues by Source

Note: The Inter-Fund Transfers account is used to record the transfer of resources to the Capital Projects Fund. This General Fund expenditure is recorded in the Capital Projects Fund as revenue and will be used for capital projects.

TOURISM FUND

The Tourism Fund is funded solely with a town administered occupancy fee levied on lodging businesses. The fee is passed through to visitors and is \$2 per lodging unit per night. The revenue collected from this fee is used to promote Palisade and the business community herein. Nearly all of the resources expended in this fund are for advertising, marketing, and promotion of Palisade.

CONSERVATION FUND

The Conservation Fund is funded solely through Colorado Lottery proceeds that are apportioned from the State of Colorado. The expenses in this fund are restricted to improving parks, outdoor spaces, and recreation areas. There are no expenses budgeted in 2021 to use any of these funds. We are planning to allow this fund balance to increase so that we can make capital improvements to the town's park system once there are sufficient resources to make such improvements.

CAPITAL PROJECTS FUND

The purpose of the Capital Projects Fund is to track revenues and expenditures as they relate to large projects. This fund has not been used in the past few years due to the lack of need for this increased operational visibility. The current need for visibility is primarily due to the commencement of many complex projects with various funding sources and reporting requirements. This fund is also a tool for the Town to provide visibility to the public on the large projects we are undertaking. This fund does not generate any revenues organically. The sources of revenue to this fund are from grants or from transfers from other Town funds. This fund does not accumulate assets in the long term. Once a project is completed, the asset is transferred to the appropriate fund.

Old High School Building Removal	Town	100%	850,000
GIS Pipeline Mapping	PHMSA	100%	50,000
		Total Projects	3,800,000

This table shows the detail of the grants the town is seeking in 2021 and the related projects those grants will fund. These grants are all classified as Intergovernmental Revenues. In most cases, the town is required to match these grants with some amount of cash. This matching amount is dependent on the grant. For each grant, the town's expected match is listed in this table. These grants will allow the town to expand the resources from \$1,052,364 of fund balance to a resource base of \$2,950,000 to use for the investment in the listed projects by adding \$1,897,636 of federal and state grant funding.

PROPRIETARY FUNDS

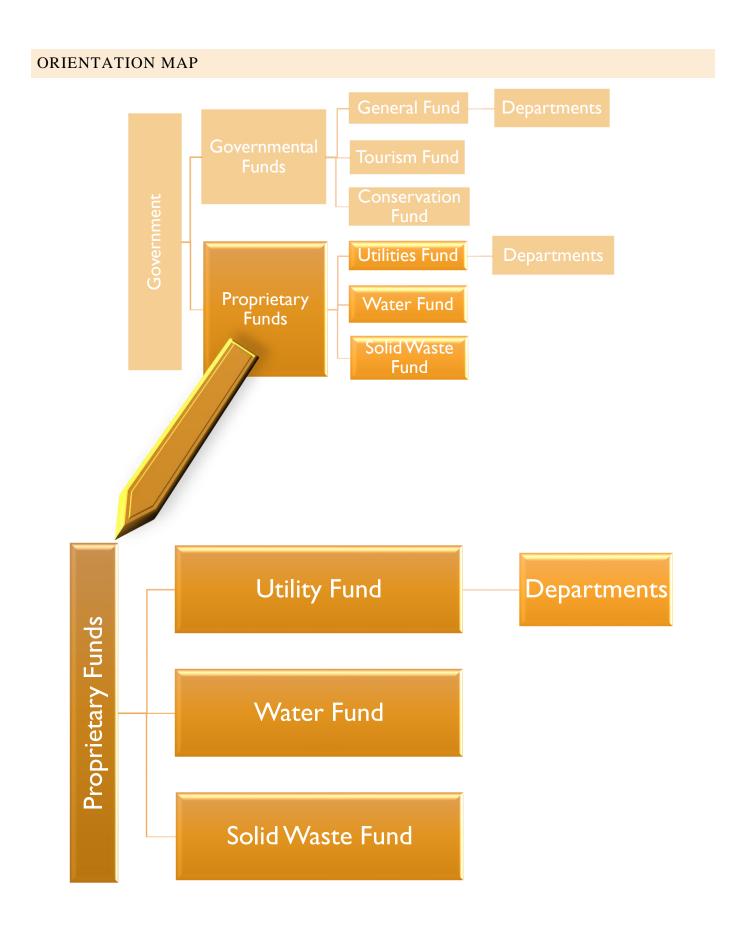

Proprietary Funds derive most of their revenue from user fees from services provided to customers. The town has three funds that fall into this category. These are the Utilities Fund, Water Fund, and Solid Waste Fund. The services measured by each of these funds are all delivered to town residents. The Utilities Fund measures the revenue, expenses, liabilities and assets of the sewage/wastewater collection and treatment operations. The Water Fund measures the revenue, expenses, liabilities and assets of the treatment and distribution of potable water to town residents. The Solid Waste Fund measures the revenue, expenses, liabilities and assets of garbage and refuse.

In comparing the revenues and expenses for each of these funds, the Water, Utilities, and Solid Waste Funds are fully funded with estimated annual revenues and are not budgeted to use any of the fund balance to finance operations. The projected revenue for each of these funds is higher than the projected expenses for the funds.

The Water Fund has a revenue to expense surplus in this budget of \$37,164. Revenues received in 2021 are expected to cover all expenditures incurred in 2021.

The Utilities Fund has a revenue to expense surplus in this budget of \$195,442. Revenues received in 2021 are expected to cover all expenditures incurred in 2021.

The Solid Waste Fund has a revenue to expense surplus in this budget of \$14,505. Revenues received in 2021 are expected to cover all expenditures incurred in 2021.

UTILITY FUND

The Utility Fund records the revenues and expenditures for the Town's domestic wastewater system (sewer collection and treatment). The Town operates the wastewater treatment facilities and maintains the in-ground collection infrastructure which includes pipes and lift stations.

Our domestic wastewater system includes five lift stations that feed a sewer lagoon system capable of treating 0.42million gallons per day of domestic sewage. The diffuser discharges the treated water into the Colorado River. The fund is divided into two different departments, the collection department, and the treatment department. The collection department is responsible for the sewer lines in the street that carry effluent from houses and businesses to the treatment plant. The treatment department is responsible for running and maintaining the sewage treatment plant.

2020 ACCOMPLISHMENTS:

We significantly upgraded the Iowa Lift Station including pump rebuilds and rewinding motors. This pump station has performed more reliably after work was completed.

We installed an improved chlorine and dichlorination apparatus to prepare the treated water for entry into the Colorado River.

2021 GOALS:

Continue the administrative process to complete an intergovernmental agreement with Clifton Sanitation to facilitate the transfer of our wastewater stream to their wastewater treatment plant for processing. Once this agreement is completed and funding secured, piping infrastructure will need to be constructed from Palisade to Clifton to transfer the wastewater to their processing station. Once this infrastructure is in place and operational, the Palisade wastewater treatment facility will be decommissioned, and the site remediated.

Headworks of the wastewater plant continues to build-up fat, oil, and grease material that causes pumps to work improperly and requires several complete cleanings from outside contractors annually.

Town's goal would be to implement the enforcement of the regulations already in place regarding industrial pre-treatment specifically grease traps. Town staff needs to inform commercial and industrial business of Best Management Practices.

WATER FUND

The watershed that supplies the Town of Palisade, with its one-of-a-kind water, is on the northwest flank of the Grand Mesa. The basin includes approximately 22.9 square miles of surface area with 22 natural springs and Cabin Reservoir supplying the Town with pristine fresh first use water.

Our water plant purifies water with two Pall membrane skids with a combined capacity of just over 2 million gallons per day. We use sodium hypochlorite to carry disinfection throughout the water distribution system. We treat water that meets or exceeds the standards set by the Colorado Department of Public Health and Environment.

The distribution system includes over twelve hundred residential meters. We have up to two-inch meters in our water system. The Town has over one hundred and seventy fire hydrants to maintain with approximately 300 valves ranging from 2 inches up to 18 inches.

2020 ACCOMPLISHMENTS:

Town of Palisade weathered Covid-19 by isolating our operators to their perspective plants and not encountering other employees. These employees modified their home lives as well to socially isolate ensuring quality water was provided to the residents.

We received an improved inspection at Cabin Reservoir with positive comments from both the State Dam Inspector and State Division of Water Resources.

The Town was awarded a GIS (Global Information System) grant to help locate and map infrastructure points to within 3-inch accuracy. We look forward to gathering data points and greatly improving our system maps. We will use this tool to help locate system valves and hydrants. Once this data is collected, we will be able to complete a 2020 goal of fire hydrant locations and flushing program, along with valve exercise program.

We completed a major SCADA upgrade at the water treatment plant that controls the day to day operations and purchased many parts to repair the plant in preparation for unanticipated emergencies.

We repaired large sections of fencing around Cabin Reservoir to preserve water quality from domestic grazing.

We improved or upgraded several raw water meters to help document for the state which drainage our raw water source is coming from for treatment.

2021 GOALS:

We want to continue water meter upgrade using Sensus meter technology. The Town will be able to upgrade our system as needed rather than undertaking a complete system overall if we choose to change to other company's technology. There are many options we can utilize with the Sensus technology.

SOLID WASTE FUND

This fund measures the residential and commercial garbage and refuse collection and disposal activities provided by the town. These services are contracted to a garbage collection business and the fees associated with these services are paid to the contractor and are used to pay for labor and supplies used by the Town to administer this program.

GENERAL FUND DEPARTMENTS

The General Fund is the primary operating fund for the town to provide governmental services to its residents. This fund largely obtains its revenue from taxes rather than user fees or other sources of revenue. The services provided under this fund are largely available to all people without additional fee or with a substantial reduction in fees that would have to be charged to recover costs. To manage these services and the resources used to provide these services, the expenses that are incurred in the general fund are tracked by department. The department is a division of the total expense profile for the fund and each division is given a manager who is responsible for providing the services to the public and managing the resources appropriated to his/her department.

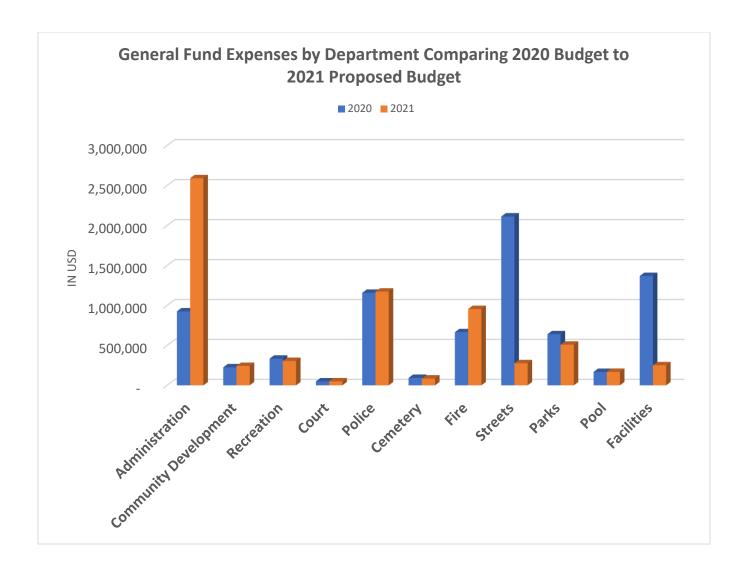

This section provides a detailed description of the expenses by department and the relative allocation of resources between departments. This section serves as the most detailed look at the budget and the reader can examine the cost of each service the town provides and how the taxes that are remitted are used to provide those services. Furthermore, there is a description of each department to orient the reader to the purpose of the department and the services that the department provides to the public.

Note: The sizable increase in the administration department is due to the interfund transfer to the capital projects fund of \$1,902,364. To review the projects related to this transfer, the reader can to the Capital Projects Fund section of this budget and review the Project Listing Table.

ADMINISTRATION

The administration department provides financial, planning, and coordination services to all other departments. This department facilitates communication with the public and provides for liaison with the Board of Trustees. This department generates reports that are for internal and public consumption in order to facilitate oversight and transparency. Elections are also managed in this department.

The main focus of the administration department is to facilitate communication, planning, coordination, and execution of services to the public through all other departments and funds in the town.

CEMETERY

The Palisade Municipal Cemetery is owned and operated by the Town of Palisade, Colorado, under the supervision of the Board of Trustees and pursuant to Ordinance 244.

2021 GOALS

- Continue the perpetual care of the cemetery.
- Add clean surface topsoil and grass seed to level low spots in the turf.
- Tree work to trim and improve aesthetics of landscape.

Realign the markers in the east section of Cemetery.

COMMUNITY DEVELOPMENT

The purpose of the Community Development Department is to provide for orderly and efficient growth and development of the Town and protection of the quality of life for its residents and the business community. The Community Development Department includes current and long-range planning activities. A major part of these activities includes processing land development applications for annexations, subdivisions, site plans, conditional use permits, easement and right-of-way vacations and dedications, rezones, variances, and others. The department provides the front-line resources to assist customers requiring building permits as well as providing information on properties regarding permitted land uses, building setbacks, fencing, signs, etc. and provides technical support to the Board of Trustees, Planning Commission, and Board of Adjustment. The Department facilitates long range planning efforts for the city, helps coordinate economic development programs, and participates in regional issues such as transportation planning, county-wide planning issues, addressing committee, air-quality committee, and other special projects.

The Community Development Department is committed to providing outstanding customer service to the citizens of Palisade. With the current economy, we are seeing an increase in the number of Land Development Applications for review. The department has done a great job of exhausting resources available to keep track of projects and all of the elements that the projects bring.

RESPONSIBILITIES

Community Development's main responsibilities consist of processing land development applications for annexations, subdivisions, site plans, conditional use permits, easement and right-of-way vacations and dedications, rezones, variances, and others. Another main component to our department is long-range planning efforts. Long-range planning efforts come in the form of a comprehensive plan, also known as a general plan, master plan or land-use plan; which is a policy document designed to guide the future actions of a community. It presents a vision for the future, with long-range goals and objectives for all activities that affect the Town of Palisade. The department is responsible for

Other responsibilities include managing geospatial information and data for the use of mapping infrastructure for needs of the Town. The department works to ensure all zoning, street, and parcel boundaries are updated within the Town's geographic information systems.

2021 GOALS

- Administer the Town of Palisade Land Development Code
- Create infrastructure and utility maps
- Ensure development reviews are handled in a thorough and timely manner
- Facilitate the long-range planning through social, economic, and environmental sustainability

COURT

The Town of Palisade conducts a municipal court for the benefit of the citizens of the Town of Palisade. The Court acts as an impartial fact-finder in determining if a Town ordinance has been violated. The Court provides fair and impartial hearings and judgments on alleged violations of the municipal code, including the Colorado Model Traffic Code, and imposes sanctions that are consistent with the nature of the violation. Palisade Municipal Court is held once a month.

FACILITIES

The Building Maintenance program is focused on providing quality facilities to assure that all buildings are kept in an attractive, safe and operational condition at all times. This is a core service of the town and helps to support the quality of the experience for the residents, guests, and staff.

PRIOR YEAR ACCOMPLISHMENTS

- Replaced key locks on park restrooms with timed electronic locks. Save labor hours, more efficient.
- Painted the downstairs Meals on Wheels dining area at Veterans Memorial Center.
- Painted training room for Police and Fire Department.
- Built new Dias for Board Chambers
- New door at Veterans Memorial Center
- Replace thermostat and climate controller at Town Hall
- Remodel of Police Department
- Complied with COVID-19 restrictions

2021 GOALS

- Design and build new restroom at Riverbend Park.
- Continue the upkeep and maintenance of existing buildings

FIRE

The Mission of the Palisade Fire Department is to protect the lives and property of the citizens and visitors of the Town of Palisade and the Rural Fire Protection District in the safest manner possible.

Working as a team we will accomplish our mission by:

- Providing aggressive fire protection and Emergency Medical Services to the community.
- Providing quality prevention and education programs to the citizens we serve.
- Working with other Public safety agencies to enhance our abilities to better serve our community.

SERVICES PROVIDED

Emergency Medical care is the most frequent call for service for which we respond. We also provide service to vehicle crashes, water rescue, confined space rescue, high/low angle rope rescue, and vehicle extrication. We respond to structure fires, vehicle fires, and wildland fires, as well as Hazardous Material incidents. The department provides CPR classes, public safety surveys, and fire inspections for commercial buildings and pre-plans.

AREA COVERED

There are four levels of government that play into the makeup of the area which the fire department covers. **The Town of Palisade** - All property within the city limits of the Town of Palisade amounts to approximately 1.1 square miles. All property from 35 Road on the west, I-70 to the north, Colorado River to the South, the area known as the Vineland's and Rapid Creek with an arm up DeBeque Canyon including Cameo Shooting Complex and the truck stop is known as the **Palisade Rural Fire Protection District** which amounts to approximately 6.47 square miles. This is a Title 32 Special District which has a board of directors made up of 5 persons of that area and contact with the town for service. The area including the Book cliffs up to the Beaver Tail Tunnel, to the base of the Grand Mesa including Horse Mountain is known as the **unincorporated area of Mesa County. East Orchard Mesa Fire Protection District** is also included due to this department does not provide ambulance transport for their area which amounts to approximately 51.1 square miles. All the area described is known as the Ambulance Service Area or ASA for Palisade which makes up the coverage area of approximately 59.37 square miles. Through mutual aid agreements, all areas of Mesa County are covered by EMS by the 12 fire Departments in the county.

ISO RATING OF PALISADE FIRE DEPARTMENT

The department was audited by ISO August of 2014. This audit grades the fire departments training, members responding to calls, apparatus and equipment carried, pre incident planning, as well as dispatch, and the water distribution system(s). ISO takes all this information and rates the department from 1 to 10 with 1 being the best and 10 being no coverage. This rating is part of what a lot of

insurance companies use to set your homeowners rates. Our ISO rating is a class 5 & 5/5Y. If you live within 5 road miles of the fire station and are within 1000 feet of a fire hydrant, you are a class 5, if over 1000 feet from a hydrant you are a class 5Y. The only parcel not within the 5 miles is the Eagles Nest Truck Stop (Cameo Truck Stop).

WHAT APPARATUS DOES THE DEPARTMENT OWN AND ITS FUNCTION.

Hose cart – 1917 Carried hose, a nozzle, axle, and some tools. Used for parades.

Old Red – 1937 Darley built on a Ford chassis with 85 horse flat head V8 gasoline engine. It was Palisades first motorized fire apparatus. 500 GPM champion front mount pump and carries 300 gallons water. Old Red is used for parades and is to this day 100% functional.

Truck 41 – 1982 55ft. ladder (Quint) Built in Clifton by Lockwood Fire Apparatus on a Pemfeb chassis with an 8V71TA Detroit Diesel engine and automatic transmission. 1250 GPM Hale mid-ship pump, carries 1000 gallons of water and 2750 total ft. of hose ranging in size from 11/2" to 5" diameter. Truck 41 is used for water supply and structure fires requiring an elevated master stream.

Engine 42 – 1983 FMC built on a Duplex chassis with a 6V92TA Detroit diesel engine and automatic transmission. 1250 GPM FMC mid-ship pump, carries 750 gallons of water, and 2800 ft, of hose ranging in size from 1" to 5" diameter. Engine 42 is used for structure fires, first out for vehicle fires on Interstate 70.

Tender 41 – 1984 International chassis with a 400 Big Cam 4 Cummins diesel engine and 9 speed manual transmission. 750 GPM Berkley pump, carries 3600 gallons of water. Tender 41 is used for water supply in areas with no hydrants, wild-land incidents, large vehicle fire, and Hazmat. Works well for fighting fires along a roadway due to its ability to pump and roll with 6 spray bars.

Brush 41 – 2014 Toyne built on a Freightliner chassis with ISC 300 Cummins diesel engine and automatic transmission. 250 GPM Waterous pump, carries 1000 gallons of water with foam capability. Brush 41 is used for wild-land fires, grass fires, and areas that require 4-wheel drive to access.

Engine 41 - 2006 Elite built on a Spartan chassis with ISC 330 Cummins diesel engine and automatic transmission. 1500 GPM Hale mid-ship pump, carries 750 gallons of water, foam capability and 2600 ft. of hose ranging in size from 13/4" to 5" diameter. Engine 41 is used for structure fires, Haz-Mat, and has extrication for vehicle crashes.

Rescue 41 – 2009 Horton built on an International 4300 chassis with a DT466E International diesel engine and automatic transmission. Rescue 41 responds to vehicle crashes, structure fires, and incidents for rescue by carrying extrication equipment for vehicle and confined space incidents, rope rescue and water rescue equipment.

Ambulance 41 – 2007 Life-Line Type III built on a ford F-450 chassis with a 6.0 International diesel engine and automatic transmission. Carries needed equipment to provide ALS Advance Life Support.

Ambulance 42 – 2010 Taylor Made Type III built on a GMC 4500 chassis with a Duramax diesel engine and automatic transmission. Carries needed equipment to provide ALS Advance Life Support.

Squad 41 - 2002 Ford Explorer with 4.0 L Gasoline engine and automatic transmission. Carries medical equipment to assist on medical incidents, assist with mutual aid with neighboring agencies for ALS.

Command 41 – 2003 Ford Excursion with 7.3 International Power stroke diesel engine and automatic transmission. Carries needed equipment to command an incident, for traffic control, and assist at scenes.

2006 Taylor Made Type III built on a Ford F-450 chassis with a 6.0 International Power Stroke diesel engine and automatic transmission. Carries needed equipment to provide ALS Advance Life Support. Needs engine work to bring back into service.

2021 GOALS

- Retain current members by being competitive in the fire and EMS field.
- Continue training to provide the community with a high level of service
- Continue public safety training i.e. CPR, fire safety.
- Aggressively work toward combining multiple districts as one, so they can continue to provide a higher level of services to residents of these areas. Moving forward with the proposed IGA.

In the last year, the department has gone through many changes. We have hired two full time Captain positions as well as brought on 9 additional Volunteers. The Captains have provided a Command presence to all shifts as well as assisted in training and tracking the new Volunteers during their probationary process. The Department consists of 21 Volunteers, 2 full time Captains, and a full time Fire Chief. We also said congratulations and good-bye to Chief Richard Rupp after serving the Town of Palisade for 32 years.

Over the last year the Department as well as the Town of Palisade have entered talks with Clifton Fire Department as well as other agencies on the East end of Mesa County to investigate forming a new Fire District. This District would allow for a greater service provided to our communities, full time positions, and prevent a duplication of efforts amongst all those involved.

With this year's budget, the Town is looking towards entering and IGA with Clifton Fire Protection District to provide Administration and over-sight to Palisade Fire. This IGA would also bring benefits to PFD members in the form of training and leadership. The agreement also includes hiring a third full time Captain as well as part time employees.

PARKS

The Parks Department provides clean, maintained parks for the following areas:

- Riverbend Park
- Veterans Memorial Park
- Peachbowl Park
- Palisade Swimming Pool
- Main Street Town Square
- Bike Skills Park
- Skate Park
- Seasonal Flowers beds and planters
- Mini pocket parks independence plaza, old community garden, civic center

RESPONSIBILITIES

- The department ensures a clean and safe park environment for community members and visitors to enjoy.
- To provide all citizens and visitors a variety of leisure facilities that are safe, accessible, well maintained, and enjoyable.
- Maintain manicured lawns by mowing, trimming, irrigating, and fertilizing appropriately.
- Weed control through appropriate spraying and removal.
- Maintenance of restrooms, shade structures, picnic tables, benches, fencing, etc..
- Conduct and document routine safety inspections of playground equipment and all park facilities.
- Planting, pruning, removing and general care of the Towns trees located in the parks and Main Street.
- Trash removal daily in all parks and open spaces owned by the Town.
- Irrigation maintenance and repair on all park sprinkler systems.
- Support athletic and recreational events in Peachbowl Park by preparing the fields and surface conditions for a safe and enjoyable playing and recreation experience.
- Support special events in parks by providing electrical, water, temporary fencing, assisting with traffic mitigation, event consultation and logistical support.
- Plant and maintain flower gardens and planters throughout town in the summer months.
- Decorate the downtown area for 4th of July Holiday.
- Decorate the downtown area for the Old-Fashioned Christmas Holiday.
- Assist in the care of community artwork throughout the Town.
- Maintain the flying of the U.S. Flag on town property and in parks.

PRIOR YEAR ACCOMPLISHMENTS

- Improved electrical system for events at Riverbend Park.
- New playground equipment, shade structure, and zipline at Riverbend Park.

- Continued partnership with Rivers Edge West for the removal of invasive tree species along Colorado Riverbanks of Riverbend Park.
- Continued revitalization of the field at Peachbowl Park.
- Planting of new trees in Riverbend Park
- Began augmenting soil at Riverbend Park with leaf debris and mulch from Russian Olive and Tamarisk tree removal.
- Painted Lions Club shelter
- Replaced sod in dead grass or weeded areas
- Comply with COVID-19 restrictions

2021 GOALS

- Add touchless water bottle filler and drinking fountains at all Parks.
- Create and build new restrooms at Riverbend Park.
- Enhance the pool landscape grounds and add shade structure at kiddy pool.
- Continue new irrigation system to west side of Riverbend Park to improve tree growth and use irrigation water more effectively.
- Continue Tamarisk and invasive species removal at Riverbend Park. Improve access and view corridors to the river.
- Improve the disc golf course with invasive plant removal, irrigation ditch improvements, new signs, new benches, planting more drought tolerant grasses, and adding mulch.
- Continue to partner with organizations to improve the surface playing area of Peachbowl Park and host tournaments and scrimmages there.

2021 BUDGET HIGHLIGHTS

- Participating in Tamarisk removal grant.
- Improve boat launch and complete the concrete pathway at the launch with an A.D.A concrete pad for better access to west end of park.

POLICE

The Palisade Police Department values the Town of Palisade, our community, and the citizens and guests who visit our town. We strive to provide a safe and secure locale while maintaining a friendly small-town feel. Continued education and training are paramount in delivering proficient law enforcement services to our citizens and maintaining superior professional standards. "Character and Ethics First" is a portion of our motto and is visible on our patrol vehicles, letter head and business cards. Modeling character and practicing ethical decision-making is paramount in our profession if we are to continue to build solid relationships with those we serve.

The police department underwent a remodel program within town hall. Walls were moved to create more usable efficient space for congested areas. The remodel provided necessary social distancing to comply with state and local health guidelines. It also provided an updated professional work environment for the employees at the police department.

Chief Funston serves as the executive representative for the Palisade Police Department. Aside from her daily management duties, she serves on a number of boards: Mesa County Asset Forfeiture Board, Grand Junction Regional Communications Center Board, Criminal Justice Advisory Committee, Colorado Crime Information Center Board, Police Officers Standards and Training Board, and the Colorado Chiefs of Police Board.

ADMINISTRATIVE DIVISION

The Administrative Division is made up of Records Division, Investigative Division, Evidence Division, and Code Compliance Division. The Administrative Division is directed by the Chief of Police and managed by an administrative sergeant.

Responsibilities

- Records Division is responsible for maintaining all police records pertinent to the Town of Palisade. Records requests, records management and coordinating with outside organizations relating to sharing of information.
- Sex Offender Registration is handled within the records management division.
- Evidence Division is managed within the records management division.
- Criminal investigations are managed within the Administrative Division. Investigators also serve on county-wide critical incident teams and boards relating to investigative functions. Investigators are on-call during off hours to provide adequate coverage for larger scale incidents that may occur in Palisade.
- The Code Compliance Officer is managed by the administrative sergeant.

Prior Year Accomplishments

- Records Division completed all records requests and maintained and reported statistics for the police department. Records manager Benham continues to work within CORA committees and attend valuable trainings to assist her with records management, sex offender registrations and evidence procedures.
- Code Compliance Officer worked diligently with the community to clean up several neighborhood issues including signage issues, weed and trash issues.
- Investigations completed several complex cases. With an increase in violent crimes across the valley, investigations were heavily involved in Critical Incident Response Team (CIRT) investigations.
- After a recent retirement, the administrative sergeant position was filled with a new employee.

2021 Goals

- Continue to pursue professional training, retain current employees.
- Create more robust social media communications for the police department.
- Through Lexis Nexis, complete Accreditation Certification.

Performance Measures

• Continue to provide professional services to the citizens and community we serve by streamlining our processes and increasing our level of education and training.

PATROL DIVISION

The Patrol Division is made up of the Patrol Team, Training Division, School Resource Officer Program and Reserve Team. The Patrol Division is directed by the Chief of Police and managed by a patrol sergeant.

Responsibilities

- The Patrol Division is responsible for responding to all calls for service, proactive preventative enforcement action, documenting and reporting, community policing efforts, and working with prosecutors towards positive outcomes.
- Continued training both in mandatory law enforcement training and professional growth.
- Continued support of neighboring agencies
- School Resource Officer position and responsibilities

Prior Year Accomplishments

- The Patrol Division successfully increased their traffic enforcement in key areas within the Town of Palisade.
- Patrol staff attended trainings as available. COVID 19 cancelled most trainings across the state. Staff worked diligently to complete state training requirements.
- Replaced current duty weapons and trained all personnel.
- Patrol Sergeant position was filled with a new person.
- School Resource Officer position was filled with a new person.

2021 Goals

- Continue to promote professional training and continued education programs.
- Continue to work towards increasing patrol staffing to support growth in the Town of Palisade.
- Create more robust social media communications for the police department.
- "Coffee with a Cop" program initiated to foster positive relationships with the community.
- Institute Body Camera program for all personnel.

Performance Measures

- The Patrol Division continues to train to enhance the skillsets necessary to provide professional services to the Town of Palisade.
- The Patrol Division maintains a high level of community service contacts and continues to foster relationships necessary for the success of public safety.

POOL

The town operates an outdoor pool during the summer for the public to enjoy.

RESPONSIBILITIES

Provide a clean, safe, and enjoyable pool experience for the pool patrons. Provide opportunities for learn to swim lessons to take place. Contract with the City of Grand Junction Aquatics Department for all Lifeguard staffing needs.

PRIOR YEAR ACCOMPLISHMENTS

- Repaired surface and applied new surface coat
- Repainted signage at pool
- Complied with all COVID-19 restrictions

2021 GOALS

- Increase family lounging area by moving existing fence east
- Build seasonal shade structures
- Systematically repair or replace pool system components
- Apply for GOCO planning grant to fund new construction of pool and landscape

RECREATION

The town's recreation department is responsible for planning and administering all the town's hosted events. It is also responsible for administering the indoor and outdoor recreation program for the town.

Special Events presented by the Town of Palisade help bring the community together, keep people active, and provide fun and affordable family activities and outings. Special Events are also an economic driver for the local town businesses and economy.

Events that are coordinated by the Town of Palisade include:

- Bluegrass Festival
- Peachfest Ice Cream Social
- July 4th Park Festivities
- Trick or Treat Street

The Events Team assists with Special Events that occur within the Town through the special events application process. The Events Team helps other event coordinators by ensuring they have traffic control plans, appropriate security, liquor licenses when needed, properly notified the community, and are logistically well-planned events. These events include but not limited to:

- Honeybee Festival
- Brews & Cruise
- Lavender Fest
- Peachfest
- Winefest
- Ice Bowl disc golf tournament
- Vintage Motorcycle show
- 4 Corners Rugby Tournament
- Tour de Vineyards
- Palisade Art Show

BLUEGRASS FESTIVAL

The Bluegrass Festival is a very popular, well-attended event that highlights bluegrass music for 3 days in Riverbend Park. This event generates revenue in the for of ticket sales, vendor licensing, merchandise sales, and beverage sales. The Town is expecting to generate about \$300,000 in revenue from this event. This revenue will offset the expenses associated with the event and generate surplus revenue.

RESPONSIBILITIES

- Continue to operate the Palisade Bluegrass Festival that assists in bringing revenue to the Town of Palisade.
- Continue to provide safe and well managed special events to town.

• Continue to provide the free July 4th and Peachfest Ice Cream social to bring the community together.

2021 GOALS

- Comply with all COVID-19 restriction to conduct special events.
- Add drinking fountains in the park.
- Continue to enhance working relationships with established events to improve the quality, security and safety, traffic control, public notification, and additional event enhancements for patrons.
- Establish a winter event for the community for fun and enjoyment during the cold winter months.

STREETS

Town of Palisade streets department encompasses several modes of transportation: vehicle, bicyclist, pedestrian, and new this year Segway transportation. Town works in cooperation with the Grand Valley Regional Transportation Committee to create meaningful public transportation -Grand Valley Transit (GVT).

Palisade continues to work to install sidewalks creating critical pathways around town based on the Critical Pathways Map.

2020 ACCOMPLISHMENTS:

Bulb outs created at the intersection of Third Street and Kluge Ave. to create a structure to install 4 way stop for pedestrian and vehicular safety in the area specifically the Post Office.

Pedestrian safety project to create a direct and safe route from business establishments to parking in the "Entertainment District." Corners established at Second and Peach along with Third and Kluge for pedestrian safe zones. Cars are now forced to follow designated traffic flow. A split rail fence was installed to force cars to use designated entry into purchased parking lot. Cross walks were re-painted to delineate desired path.

Improved boat ramp at the Rim Trail parking lot by angling approach making for a longer less steep grade. Well received from the Colorado River user's community.

Radar signs installed on Elberta Ave, First Street and North River Road. These signs were well received and had noticeable positive influence on rate of speed.

Storm water contract changed from City of Grand Junction (5-2-1) to Mesa County Stormwater division. Town of Palisade determined it was more appropriate to have all required building type permits at one location.

Grant submittal success through enhanced communication and complete staff support to the tune of **1.7 Million dollars** through TAP (Transportation Alternative Program) and MMOF (Multi-Modal Options Fund)

Parklets installed quickly, due to COVID-19, for our downtown eating establishments lead to community support to enhance the parklet program through a Main street grant and Covid Funds.

Street Classification Map is updated to show current roads and their classification. This helps with planning and reporting to the state for HUTF funding.

2021 GOALS:

Continue with sidewalk improvements based on Critical Pathways Map and other connectivity issues.

TAP (Transportation Alternative Program) grant implementation with design work for sidewalks along the South side of the Hwy 6 frontage road from Iowa Avenue to Palisade High School. Stolfus Engineering has been selected as the project engineer. Resident feedback will be encouraged through the design process. I envision open houses with Town staff and engineers to ensure everyone has input. Information will be posted on website and included in announcement sections of town meetings. Construction is not planned to start until 2021.

MMOF (Multi Model Options fund) through CDOT has allowed us to reconfigure and upgrade the entrance to the entire Grand Valley. Town will be changing the look of Hwy 6 from the Colorado River bridge to Iowa Ave. Two lanes of traffic will change to one lane with turn lanes and improved medians along with much wider and improved pathway for bikes.

When both the MMOF and TAP grant projects are complete, Hwy 6 will have a drastically different feel and look. Improved surface and sidewalks with landscaped medians and street lighting that we hope all Palisade residents will see as a safe eye-appealing road that encourages people to stop and stay awhile where "Life Taste Good all year Long".
