Re: 1st Street Road work on 5/12/25

To: Residents and Businesses who utilize 1st Street

Good Afternoon,

You may have noticed signs and a steel plate near the intersection of 1st and Crawford. There is a depression that has developed which we believe is being caused by a leaking irrigation line.

Unfortunately in order to investigate and perform repairs safely we will have to close both lanes of 1st St. starting at 9:15 AM on Monday, 5/12/25. Work is anticipated to only take a few hours but to keep our crew safe all traffic will have to be detoured around the area.

Attached is a map of the detour route for reference, please share with anyone who may be affected by the temporary disruption in normal traffic flow. We appreciate your patience and will do our best to get the street opened back up as quickly as possible.

Sincerely,
Brian Flenniken
Public Works Director, Town of Palisade
